

# MTH 1020 Week 4 tutorial

1. Get into groups of 3-4 people who all prepared a different question in advance.
2. Write your **preferred name** and **ID number** on the whiteboards so I can take attendance
3. Present your prepared question to each other as I come around, you should only take about 5min each for this.
4. Then get started on the other questions **in your groups**.
5. **At the end:** please erase the boards and return any markers etc that you used (you do not need to return the handouts)
6. **Due Friday 28th:** assignment 3 (attempt all 6 qns since only 3 random qns count for the grade)
7. **Due Monday 31st:** written problem submissions from week 2-4 tutorials (participation grade and feedback given)
